ACTIVITIES AND CLUBS – EXTERNAL PROVIDERS

The Outdoors Project will run on a Wednesday after school on school premises for 1 hour in a green space or on the playground (starting after Easter).

Every session is different – games, learning skills, communicating, crafting, creativity and lots of outdoor play. A non-competitive environment, with something for everyone from the quiet and methodical to the more loud and lively. Activities will change every term so our long-term members continue to gain all new experiences and skills!

Staff – All our staff are DBS checked and we have first aid trained instructors at every club.

Each club has a Lead instructor (responsible for sign in/sign out and running the session/parent communication) and an Assistant Instructor (responsible for making sure everyone is happily taking part, encouraging those who may be distracted or need encouragement to join in the game).

We are all about getting kids outdoors to learn and play together, and getting away from screens – for a little while at least...!

YOU CREW
iPad Video Creator Academy

CROOKED TREE EVENTS

@CrookedTreeLtd YouCrew Club Videos crookedtreeevents.com

Is your child obsessed with YouTube?

YouCrew, delivered by Crooked Tree Events, is a Video Creator Academy for kids who would love to learn how to make their own YouTube-style videos in a fun and safe environment. The club is designed to channel the screen obsession into creativity by teaching video production and editing entirely on mobile devices.

During each session, our YouCrewbers will take part in a popular YouTube-style activity, record all the action and then be guided through editing techniques to add their own special effects and create a completed video to take home.

Take a look at our video highlights here: <https://youtu.be/eSCa8SiE4eA>

For each session, we will prepare and set up the games/activities for the video, set up a mini studio for each group and then let the kids film themselves taking part! Our kids will work in small groups of 2-3 children to create their videos together, sharing a device between them. Once filming is complete, we will guide them through some awesome editing techniques and special effects, and then give them the creative freedom to edit their content into a finished video. After the session, we will send you a secure link to view and download your child's video from that week.

ACTIVITIES AND CLUBS – EXTERNAL PROVIDERS

The skills learnt will range from basic editing, music, titles and special effects, to green screens, scriptwriting and presenting.

And as our workshops provide a fun, relaxed environment based around online content, it's the perfect opportunity to give them guidance and support in how to stay safe and behave appropriately online, which we aim to include a little about each week.

The club provides everything needed each week including:

- iPads, Apps, Editing Software
- Mini studio kits; backdrops, tripods, lights, microphones, etc
- All games, props and supplies
- Copies of videos sent home each week
- Safety online guidance

We're delighted to be able to offer this unique activity to St Nic's students on Mondays from 16th Sept 3.30-4.30pm each week.

Places are £8 a week which can be paid half termly.

In order for your child to be able to take part in the activity there are some essential booking and image consent forms that must be completed so please email Tamara on hello@crookedtreeevents.com to find out more.
