Dear Parents/Carers

### **READING IN KSI**

As a staff team, we are passionate about fostering a love of reading for all children and providing the right teaching and experiences where children can develop this key skill. We have recently developed exciting new book corners across KSI – Gruffalo themed in Year 1 and sea themed in Year 2, where the children can choose and read a range of different books. A big thank you to parents who kindly donated items to set up the book corners.

### **Reading at Home**

Regular reading with your child has a very positive impact on their progress, whether they are beginning to learn their initial sounds, starting to blend or can read more fluently and are developing their comprehension skills.

Children should be bringing home books at their current reading level and if you are able to read these with your child after school or at the weekend, then this is hugely beneficial. Please record details of what you have read together in their reading journal and make comments which could be useful for the teacher if relevant. For every ten books read at home, each child gains a lucky book token, which is put into a prize draw which may win a new book to take home and keep.

Children should be reading and changing their Oxford Reading Tree books daily (or once they have read them through at home). Most children will also be bringing home a Read Write Inc Book each week (on a Friday). It is really important that these are returned on a Friday, which coincides when the new one is handed out as they link directly to what has been learnt during the weekly session.

We are currently running low on both RWI and ORT books that are in school which means that lots are still at home with pupils... **Please can you have a good look at home and return any books asap so that we can offer the widest selection of books at the right level to the children.**

### **Parent Readers in School**

We are now welcoming back parent readers in school at the start or end of the school day, providing that you are symptom free and wearing a face covering. Where possible, we also recommend doing a lateral flow test before coming into school if you are able to do so. We are hugely grateful for this support as it provides additional opportunities for children to read, particularly if they do not get this opportunity at home.
