

# Science - Year 1 - Biology

## Plants

### Key Vocabulary

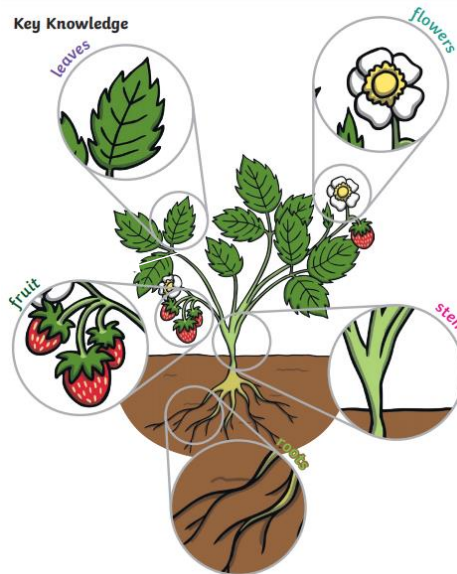

roots  
 stem  
 leaves  
 flowers  
 petals  
 fruit  
 seed  
 bulb  
 wild plants  
 garden plants  
 weed  
 deciduous  
 evergreen

### Key Facts

- Most plants have a stem, roots, leaves, flowers or fruits and seeds.
- Some plants change over time, for example the leaves falling off trees and buds opening.

### Parts of a Plant

### Types of Trees

#### Cedar

#### Horse Chestnut

#### Oak

### Science GOLDEN WORDS:

prediction  
 measurements  
 conclusion  
 explain  
 classify

### Types of Wild Plants

#### Wild Plants

### Types of Garden Plants

#### Garden Plants

### Working Scientifically:

- asking relevant questions and using different types of scientific enquiries to answer them.
- setting up simple practical enquiries, comparative and fair tests.
- recording findings using simple scientific language, drawings, labelled diagrams, keys, bar charts, and tables.
- identifying differences, similarities or changes related to simple scientific ideas and processes.
