

# Science - Year 1 - Biology

## Plants

### Key Vocabulary

roots  
stem  
leaves  
flowers  
petals  
fruit  
seed  
bulb  
wild plants  
garden plants  
weed  
deciduous  
evergreen

### Science GOLDEN WORDS:

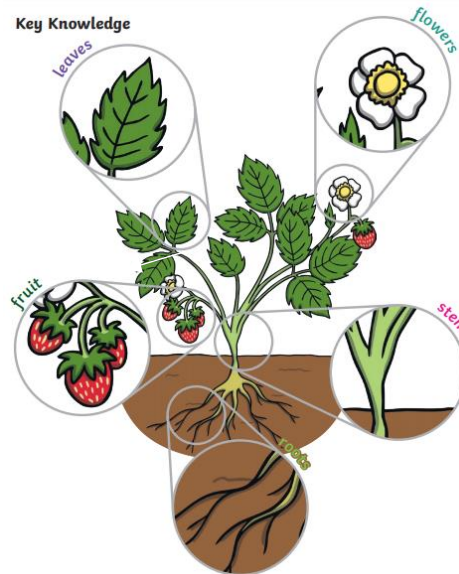

prediction  
measurements  
conclusion  
explain  
classify

### Key Facts

- Most plants have a stem, roots, leaves, flowers or fruits and seeds.
- Some plants change over time, for example the leaves falling off trees and buds opening.

### Parts of a Plant

### Types of Trees

Cedar

Horse Chestnut

Oak

### Types of Wild Plants

Wild Plants

dandelion

daisy

buttercup

nettles

ivy

dog rose

clover

brambles

### Types of Garden Plants

Garden Plants

fuchsia

pansy

sweet pea

sunflower

rose

lavender

iris

### Working Scientifically:

- asking relevant questions and using different types of scientific enquiries to answer them.
- setting up simple practical enquiries, comparative and fair tests.
- recording findings using simple scientific language, drawings, labelled diagrams, keys, bar charts, and tables.
- identifying differences, similarities or changes related to simple scientific ideas and processes.
