

## Mars Bar Cake

Get some mars bars and some butter and some rice krispies. Put the mars bars in the big pan. Cut up the mars bars before you put them in the big pan. Weigh out the butter, put in pan with mars bars. Turn on the heat. Wait till it's all gooey.

Add the Rice krispies and stir like the wind.

Put into a tray and put in the fridge. Don't forget to grease the tray before you add the mixture otherwise it sticks really hard and you can't get it out. Delicious!
